

**STRATEGY OBJECTIVES**

- Invest in quality companies at a significant discount to their intrinsic value, providing opportunity to deliver strong results over time as solid managements drive both growth in value and reduction in the discount.
- Seek to excel in Value-driven markets, and to outperform the benchmark on average over time.
- Outperform the benchmark in up markets.

**PORTFOLIO RETURN METRICS\*\***

5 years ending 6/30/2022

**QUARTERLY HIGHLIGHTS**

After a strong 2021 and a relatively good start to the year, the Matrix LCV portfolio sold off in Q2 in a market that continued to penalize recent winners, of which our portfolio had many. For the quarter, and the year-to-date through June 30, the LCV portfolio trailed the Russell 1000 Value Index (gross of fees).

Looking ahead, we think investors are too negative about the economic outlook, inflation and the stock market. We are finding many good investment ideas in high quality companies, and historically that has provided outsized returns in subsequent periods. We expect the stock market and our portfolio to end the year well above current levels. The portfolio's holdings are operating at a very high level with strong earnings and cash flows. On June 30, the LCV portfolio's P/E multiple was 12.6 times estimated 2023 earnings, compared to the Russell 1000 Value Index 13 times earnings.

All data is through 6/30/2022 unless otherwise noted. Source: Bloomberg, eVestment Alliance. The reader should not assume that an investment in the securities identified was or will be profitable. Note: Returns less than a one-year period are not annualized. All portfolio information (Top 10 Holdings, Portfolio Characteristics, Sector Allocation and Portfolio Statistics) is supplemental to the GIPS disclosure presentation on the reverse. \*Inception date of 1/1/1999. \*\*Portfolio statistics and returns are calculated for five years through 6/30/2022 and are gross of fees, unless stated otherwise. Performance and statistics rankings are based on the eVestment Alliance's U.S. Large Cap Value Universe (357 products as of 7/22/2022). Statistics quartile ranks are calculated using the 5th, 25th, 50th, 75th and 95th percentile. Holdings information and portfolio turnover is based on a representative portfolio. The securities identified and described do not represent all of the securities purchased, sold or recommended for client accounts. The reader should not assume that an investment in the securities identified was or will be profitable.

**KEY DIFFERENTIATORS**

- 30+ years of continuity of leadership and philosophy; team averages 20+ years at the firm. Principals have significant personal assets invested alongside clients.
- Eight proprietary intrinsic value models used since the firm's inception allow for identification of undervalued stocks in all industries in all market environments.
- "Go Anywhere" ability allows us to be opportunistic, believing that attractive undervalued investments can surface in any sector at any time. We are not benchmark-driven.
- Research-based, high conviction approach leads to a portfolio of 30-40 names, providing for a favorable mix of performance potential and diversification.
- Focus on better companies in better industries helps to avoid value traps.

**The Large Cap Value Equity Composite** contains fully discretionary accounts invested in equity securities of financially strong, U.S. Large Capitalization Companies using a value-oriented strategy. For comparison purposes the Large Cap Value Equity Composite is measured against the S&P 500 Index and Russell 1000 Value Index. The S&P 500 Index measures the performance of 500 publicly traded companies, which are among the largest in the United States. The Russell 1000 Value Index measures the performance of the 1,000 largest companies in the Russell 3000 Index with lower price-to-book ratios and lower forecasted growth values. Composite performance comparisons to the Russell 1000 Index which measures the performance of the 1,000 largest companies in the Russell 3000 Index may be presented for this composite. The minimum account size for this composite is \$250 thousand.

Matrix Asset Advisors, Inc. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS Standards. Matrix Asset Advisors, Inc. has been independently verified for the period January 1, 1999 through December 31, 2020. Verification assesses whether [1] the firm has complied with all the composite construction requirements of the GIPS Standards on a firm-wide basis and [2] the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS Standards. The Large Cap Value Equity Composite has been examined for the periods January 1, 1999 through December 31, 2020. The verification and performance examination reports are available upon request. Matrix Asset Advisors, Inc. is a registered investment adviser that manages equity and fixed income assets for client accounts. The firm maintains a complete list and description of composites, which is available upon request.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Beginning July 1, 2002, composite policy requires the temporary removal of any portfolio incurring a client initiated significant cash inflow or outflow of 15% or greater of portfolio assets. Additional information regarding the treatment of significant cash flows is available upon request. Past performance is not indicative of future results. The 3-year annualized standard deviation is calculated using monthly data. The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income. Net of fee performance was calculated using the highest management fee of 1%, applied quarterly. The annual composite dispersion presented is an asset-weighted standard deviation calculated for accounts in the composite the entire year. Policies for valuing portfolios, calculating performance and preparing compliant presentations are available upon request.

The management fee schedule is as follows: 1.00% on accounts below \$1,000,000 of assets under management, .90% on the first \$1,000,000 to \$5,000,000 of assets under management, .80% on the next \$5,000,000 of assets under management, .75% on the next \$15,000,000 of assets under management, .65% on the next \$25,000,000 of assets under management, .55% on the next \$50,000,000 of assets under management and .45% on assets under management in excess of \$100,000,000. Actual investment advisory fees incurred by clients may vary.

The Large Cap Value Equity Composite was created January 1, 1999.
